

SOUTH BURNABY

METRO CLUB

Gender Equity Policy

OBJECTIVE

- To clearly communicate our clubs position regarding gender equity

GUIDELINES

SBMC strives to ensure that everyone has access to the opportunities to achieve the social, psychological and physical benefits that come from participating and leading in sport and physical activity.

In recent years, SBMC has been primarily a boys club but its current goal is to attract more girls and women to its soccer program. In enlarging its programs SBMC recognizes the importance and benefits of gender equity and is committed to examining its governance, organizational practices and policies as required from time to time to ensure they do not hinder participation or leadership based on gender.
